OVERVIEW

DESIGN OVERVIEW

Disney experts from across China and around the world worked collaboratively to create a resort that is authentically Disney and distinctly Chinese. Shanghai Disney Resort incorporates unique Chinese characteristics and elements that reflect Chinese consumers' preferences. Throughout Shanghai Disneyland, classic Disney characters and storytelling blends with Chinese customs and celebrations to create a unique experience for guests in Shanghai. Some of the Chinese influences are immediately recognizable and some are more subtly incorporated throughout the resort. A walk around the resort reveals the beauty and identity of today's China, while some places take Chinese guests into a whole new immersive world.

OWNERSHIP AND MANAGEMENT

Shanghai Disney Resort, comprised of two owner companies and a management company, is a joint venture between The Walt Disney Company and Shanghai Shendi Group. Shanghai Shendi Group owns a 57% interest in the two owner companies, and The Walt Disney Company owns the remaining 43% interest. The management company, in which The Walt Disney Company has a 70% interest and Shanghai Shendi Group has the remaining 30% interest, is responsible for operating the resort.

COMMUNITY

Shanghai Disney Resort aims to not only build and operate a world-class tourism destination, but also serve as a valuable community partner and active corporate citizen in Shanghai and China. Working within the community, we provide support to address a wide range of needs for children while creating opportunities to strengthen relationships with the important adults in their lives. In 2016, in honor of the grand opening of Shanghai Disney Resort, The Walt Disney Company announced a 20 million RMB/$3.1 million USD donation to support the creation of Disney Fun Houses. By June of 2024, The Walt Disney Company China and Shanghai Disney Resort have built 50 Disney Fun Houses in children's hospitals across 41 cities of 24 provinces and municipalities in the Chinese Mainland, bringing the positive power of Disney stories to those undergoing treatment and recovery. Cast Members are also encouraged to donate their time and many talents to charitable and community endeavors through our VoluntEARS program. Since 2012, Shanghai Disney Resort VoluntEARS has contributed more than 77,000 hours in our community.

ECONOMIC IMPACT

Shanghai Disney Resort becomes a significant employer in the Pudong district of Shanghai, with more than 15,000 Cast Members hired. The resort will continue to generate many great employment opportunities for Chinese talent at all levels, and directly or indirectly supports the creation of thousands of more jobs.
